Continental Clothing Co. fare una reale differenza

La produzione sostenibile è la creazione di prodotti realizzati attraverso processi economicamente sani che riducono al minimo gli impatti ambientali negativi, che favoriscono il risparmio energetico e delle risorse naturali. La produzione sostenibile migliora la comunità, le condizioni dei lavoratori e la sicurezza del prodotto.

Continental Clothing Co. riconosce che la produzione di abbigliamento è uno dei settori industriali più ambientalmente dannosi e nocivi per il pianeta. Prende passi decisivi e spesso pionieristici nell'affrontare i molti effetti negativi.

A partire dalla provenienza delle materie prime, l'azienda garantisce la piena tracciabilità di tutte le fibre di cotone, la scelta di tessuti a basso impatto ambientale, Tencel® lyocell, viscosa EcoVero® e poliestere riciclato nella gamma Continental®, 100% cotone organico certificato nella gamma EarthPositive®, cotone organico Fairtrade nella gamma Fair Share, cotone organico riciclato miscelato con poliestere riciclato nella gamma Salvage®.

Continental Clothing Co. è stato un forte sostenitore in molte campagne di alto profilo, tra cui la campagna Clean Cotton Campaign e Pick Your Cotton Carefully. Ha lavorato con la Environmental Justice Foundation e il Pesticide Action Network per molti anni. Continental Clothing Co. è un collaboratore attivo dell'International Working Group sul Global Organic Textile Standard (GOTS).

Continental Clothing Co. marcando la diferencia

La producción sostenible es la creación de productos manufacturados a través de procesos económicamente seguros que minimizan el impacto ambiental negativo mientras conservan energía y recursos naturales. La fabricación sostenible también favorece las condiciones de los trabajadores, las comunidades y el producto.

Continental Clothing Co. reconoce que la fabricación de la ropa es uno de los sectores industriales ecológicamente más perjudiciales y dañinos en el planeta y ha tomado medidas decisivas y a menudo pioneras para abordar estos impactos negativos. Empezando con la obtención de materias primas, la empresa garantiza la rastreabilidad completa de todas las fibras, eligiendo algodón de bajo impacto, Tencel® lyocell, viscosa EcoVero® y poliéster reciclado en la gama Continental®, algodón orgánico 100% en la gama EarthPositive®, algodón orgánico Fairtrade en la gama Fair Share y algodón orgánico reciclado mezclado con poliéster reciclado en la gama Salvage®.

Continental Clothing ha sido un sólido defensor de varias campañas de alto perfil, incluyendo la Clean Cotton Campaign, Pick Your Cotton Carefully, y ha estado trabajando con la Environmental Justice Foundation y la Pesticide Action Network durante muchos años. Continental Clothing es colaborador activo del International Working Group en el Global Organic Textile Standard (GOTS).

Continental Clothing Co. making a real difference

Sustainable manufacturing is the creation of manufactured products through economically-sound processes that minimize negative environmental impacts while conserving energy and natural resources. Sustainable manufacturing also enhances employee, community, and product safety.

Continental Clothing Co. recognises that garment manufacturing is one of the most environmentally damaging and harmful industrial sectors on the planet, and takes decisive and often pioneering steps towards addressing the many negative impacts. Starting with the sourcing of raw materials, the Company ensures full traceability of all fibres, choosing low impact cotton, Tencel® lyocell, EcoVero® viscose and recycled polyester in the Continental® range, 100% certified organic cotton in the EarthPositive® range, Fairtrade organic cotton in the Fair Share range, and recycled organic cotton blended with recycled polyester in the Salvage® range.

Continental Clothing Co. has been a vivid supporter of many high profile campaigns, including the Clean Cotton Campaign, Pick Your Cotton Carefully, and has been working with the Environmental Justice Foundation and the Pesticide Action Network for many years. Continental Clothing Co. is an active contributor to the International Working Group on the Global Organic Textile Standard (GOTS).

Continental Clothing Co. crée une réelle différence

La confection durable est une création de produit par le biais d'un processus qui minimise les impacts négatifs sur l'environnement en conservant les énergies et ressources naturelles. Une telle confection est également bénéfique pour les employés, les communautés et assure des produits plus sains. La confection de vêtements est l'une des industries les plus polluantes et dangereuses pour l'environnement au monde. Continental Clothing mène des actions, souvent avant-gardistes, afin de réduire ces nombreux effets négatifs. Cela commence par le choix des matières premières. L'entreprise utilise du coton à faible impact environnemental, du Tencel® lyocell, de la viscose EcoVero® et du polyester recyclé dans la gamme Continental®, du coton certifié biologique à 100% dans la gamme EarthPositive® et du coton biologique recyclé mélangé à du polyester recyclé dans la gamme Salvage®. Elle assure également une traçabilité complète de toutes ces fibres. Continental Clothing soutient activement de nombreuses campagnes réputées, incluant la Clean Cotton Campaign, Pick Your Cotton Carefully et travaille depuis de nombreuses années avec l'Environmental Justice Foundation et le Pesticide Action Network. Continental Clothing contribue activement à l'International Working Group du Global Organic Textile Standard (GOTS).

A proud member of Fair Wear
www.fairwear.org

Continental Clothing Co. has been running a pro-active social responsibility programme as a member of Fair Wear Foundation since 2006. All the Company's manufacturing facilities are regularly audited for social compliance and are running active monitoring programmes in accordance with standards advocated by the International Labour Organisation, the Ethical Trading Initiative and other international bodies. The Company publishes an annual Social Report.

In January 2008, Continental Clothing Co. became the first company in the world to calculate the carbon footprint and place the Carbon Reduction Label on textile products.

We have reduced the carbon footprint of EarthPositive® products by around 90% through a combination of innovative product design, low impact organic agriculture, efficiency in manufacturing, and by replacing standard grid electricity with renewable wind power. We do not use carbon offsets and our footprint calculations were certified by the Carbon Trust Certifications in the U.K.

It has been calculated that a single EarthPositive® T-shirt saves around 7 kilograms of CO2e, whereas a hooded sweatshirt saves up to 28 kgs.

Having taken the greenhouse gas emissions to pre-industrial levels, all the EarthPositive® products carry the registered mark "Climate Neutral".

En janvier 2008, Continental Clothing devient la première entreprise du monde à calculer l'empreinte carbone et à apposer l'étiquette de la Réduction d'Empreinte Carbone (Carbon Reduction Label) sur des produits textiles.

Nous avons réduit l'empreinte carbone des produits EarthPositive® d'environ 90% grâce à la combinaison d'un produit au design innovant, d'un faible impact environnemental lié à une production biologique, de l'efficacité dans la confection et en remplaçant le réseau d'électricité classique par de l'énergie renouvelable provenant d'éoliennes. Nous n'utilisons aucune compensation carbone et le calcul de l'empreinte carbone est certifié par le Carbon Trust Certifications au Royaume-Uni.

Il a été calculé qu'un seul t-shirt EarthPositive® réduit les émissions de CO2e d'environ 7kg, et un sweat à capuche en économise jusqu'à 28kg. En ayant réduit les émissions de gaz à effet de serre à un niveau pré-industriel, tous les produits EarthPositive® portent la marque enregistrée de "Climate Neutral" (climatiquement neutre).

Nel gennaio 2008, Continental Clothing Co. è diventata la prima azienda al mondo a calcolare l'impronta di carbonio e utilizzare l'etichetta Carbon Footprint su prodotti tessili.

Abbiamo ridotto l'impronta di carbonio dei nostri prodotti EarthPositive® di circa il 90% attraverso una combinazione innovativa di progettazione del prodotto, l'agricoltura biologica a basso impatto, l'efficienza produttiva sostituendo l'utilizzo di energia elettrica di serie con l'energia eolica e rinnovabile. Non usiamo crediti di carbonio ed i nostri calcoli delle emissioni di anidride carbonica sono stati approvati dal Carbon Trust certificato nel Regno Unito.

E' stato stimato che una singola t-shirt EarthPositive® fa risparmiare circa 7 chili di CO2e, mentre una felpa con cappuccio consente di risparmiare fino a 28 chilogrammi. Avendo riportato le emissioni di gas a livelli pre-industriali, tutti i prodotti EarthPositive® hanno il marchio "Climate Neutral".

Continental Clothing Co. is licensed by the Soil Association Certifications to supply fully certified organic products in accordance with the Global Organic Textile Standard (GOTS). Licence number DK19090. The Company also holds a licence to use the Soil Association Organic Standard and GOTS logos on products that meet the organic standard criteria. All the certified products that are sold 'unprocessed', that is without printing, can carry the logos. Garments that are printed according to the organic standard can also carry the organic standard logos at the point of sale.

The aim of the standard is to define world-wide recognised requirements that ensure organic status of textiles, from harvesting of the raw materials, through environmentally and socially responsible manufacturing up to labelling in order to provide a credible assurance to the end consumer. Textile processors and manufacturers are enabled to export their organic fabrics and garments with one certification accepted in all major markets. Approved are natural fibres that are certified organic and fibres from conversion period certified according to recognised international or national standards and certified by any IFOAM accredited or internationally recognised certifier.

Key criteria for processing and manufacturing include environmental, technical quality and human toxicity, social, and quality assurance system.

www.global-standard.com

Continental Clothing Co. sous le contrôle de la Soil Association et du Control Union fournit des produits totalement certifiés biologiques et conforme à la "Global Organic Textile Standard". Numéro de licence DK19090. La Société détient également une licence d'utilisation du logo de la "Soil Association Organic Standard" pour les produits qui répondent aux critères standards organiques. Tous les produits certifiés qui sont vendus non transformés, ce qui signifie sans impression, peuvent porter ce logo. Les vêtements qui sont imprimés selon cette norme biologique peuvent également porter ce logo dans leurs points de vente. L'objectif de la norme est de définir des exigences reconnues du monde entier qui garantissent le statut « biologique » du textile, de la récolte des matières premières, en passant par la fabrication écologiquement et socialement responsable jusqu'à l'étiquetage afin de fournir une assurance crédible au consommateur final. Les transformateurs et fabricants de textiles sont capables d'exporter leurs tissus et vêtements organiques possédant une seule et unique certification qui est commune et acceptée sur la plupart du marché du textile. Sont certifiées comme fibres naturelles, seules les fibres qui sont certifiées biologiques ou celles certifiées selon des normes internationales ou nationales reconnues et certifiées par un IFOAM accrédité ou selon la norme ISO 65.

Les principaux critères pour le traitement et la fabrication comprennent la qualité environnementale et technique, la toxicité humaine, sociale, et le système d'assurance de qualité.

Continental Clothing Co. è certificata Soil Association per la fornitura di prodotti biologici secondo il Global Organic Textile Standard (GOTS) numero di licenza DK19090.

La società ha anche una licenza per utilizzare il logo Soil Association Organic Standard GOTS sui prodotti che soddisfano i criteri dello standard biologico. Tutti i prodotti certificati venduti 'neutri', senza la stampa possono portarla. Qualsiasi capo di abbigliamento stampato in base alla norma organica può anch'esso portare i loghi della certificazione organica nei punti vendita.

Lo scopo di questa norma è quello di definire i requisiti riconosciuti in tutto il mondo che garantiscono lo stato biologico dei tessuti, dalla raccolta delle materie prime, attraverso la produzione ecologicamente e socialmente responsabile. Di fornire una garanzia per l'etichettatura che sia credibile per il consumatore finale. Produttori e trasformatori di tessuto sono abilitati ad esportare i loro tessuti organici e capi di abbigliamento con una certificazione accettata nei mercati. Approvate sono solo le fibre naturali biologiche e le fibre in conversione che siano state certificate da enti riconosciuti a livello internazionale per gli standard internazionali o nazionali validi per qualsiasi IFOAM accreditato. I criteri fondamentali per l'elaborazione e la produzione sono di qualità ambientale, sociale e tecnica, tossicità per l'uomo e il sistema di qualità.

Continental Clothing Co. está apoyada por las certificaciones de la Soil Association para suministrar productos ecológicos según la Global Organic Textile Standard (GOTS). Licencia número DK19090.

La compañía también tiene una licencia para emplear los logos de Soil Association Organic Standard y GOTS en productos que cumplen los criterios estándar orgánicos. Todos los productos certificados que se venden 'sin procesar', sin la impresión, pueden llevarlos. Toda prenda que se imprima según el estándar orgánico también pueden llevar los logos de estándar orgánico en los puntos de venta.

El objetivo de este estándar es definir los requisitos reconocidos mundialmente que garantizan la condición orgánica de los textiles, desde la recolección de las materias primas, pasando por la fabricación ambientalmente y socialmente responsable, hasta el etiquetado para proporcionar una garantía creíble para el consumidor final. Los fabricantes y procesadores de materia textil están habilitados para exportar sus tejidos orgánicos y prendas de vestir con una certificación aceptada en los mercados.

Solamente se aprueban las fibras naturales que son certificadas como orgánicas y las fibras en período de conversión certificadas según las normas internacionales o nacionales reconocidas y válidas para cualquier IFOAM acreditado o certificadora internacionalmente reconocida. Los criterios clave para el procesamiento y fabricación incluyen la calidad ambiental, social y técnica, la toxicidad para los humanos y el sistema de calidad.

Continental Clothing Co. products displaying the Global Recycled Standard symbol are certified by the Control Union Certifications, licence CU 828402.

The Global Recycled Standard is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content from pre- and post-consumer waste, chain of custody, social and environmental practices, and chemical restrictions.

The GRS is intended to meet the need of companies looking to verify the recycled content of their products (both finished and intermediate products) and to verify responsible social, environmental, and chemical practices in the production of these products.

The objectives of the GRS are to define requirements to ensure accurate content claims, good working conditions, and that harmful environmental and chemical impacts are minimized.

The GRS addresses the flow of products within and between companies, and covers manufacturing, storage, handling, and shipping. The GRS applies to the supply chain, including all owners up to the final seller in the last B2B transaction.

Continental Clothing Co. is certified under the Organic Content Standard by Control Union Certifications, licence CU 828402.

The goal of the Organic Content Standard (OCS) is to ensure trust in organic content claims. The OCS accomplishes this goal by verifying the presence and amount of organic material in a final product. It provides a strong chain of custody system from the source of the organic raw material to the final product through certification. It allows for transparent, consistent, and comprehensive independent evaluation and verification of organic material content claims on products by an accredited certification body. As a business-to-business tool, the OCS may be used to ensure that products companies purchase actually contain organic material.

The Standard does not cover the certification of the raw material itself, which is verified independently of the production process certification. It also does not address processing inputs (e.g. chemicals), environmental aspects of processing (e.g. energy or water usage), social issues, safety issues, or legal compliance.

www.textileexchange.org

Continental Clothing Co. est certifié sous la norme "Organic Content Standard" par Control Union Certifications, licence numérotée: CU 828402. L'objectif de la norme "Organic Content Standard" (OCS) est d'assurer la confiance dans les demandes de contenu organique. L'OCS accomplit cet objectif en vérifiant la présence et la quantité de matière organique dans un produit final. Il déploie pour cela une chaîne de contrôle solide, allant du contrôle de la matière première organique jusqu'au produit final via la certification. Il permet une évaluation indépendante transparente, cohérente et complète ainsi qu'une vérification des allégations relatives à la teneur en matière organique des produits par un organisme de certification accrédité. Présent dans le BtoB (business-to-business), l'OCS peut être utilisé pour s'assurer que les produits que les entreprises achètent contiennent effectivement des matières organiques. La norme ne couvre pas la certification de la matière première elle-même, qui est vérifiée indépendamment de la certification du processus de production. Il ne traite pas non plus des entrées de traitement (ex: des produits chimiques), des aspects environnementaux du traitement (ex: l'utilisation de l'énergie ou de l'eau), des questions sociales, des questions de sécurité ou de la conformité légale.

www.textileexchange.org

Continental Clothing Co. è certificata Organic Content Standard dalla Control Union Certifications, licenza 828.402 CU.

Lo scopo dell' Organic Content Standard (OCS) è quello di garantire la verità sul contenuto organico. OCS raggiunge questo scopo verificando la presenza e la quantità di materia organica nel prodotto finale. Favorisce l'esistenza di una forte catena di controllo, dalla fonte del materiale organico prima fino al prodotto finale attraverso la certificazione. Consente inoltre una valutazione e una ampia verifica indipendente, consistente e trasparente di verifica sul contenuto organico da parte degli organismi di certificazione accreditati. Come strumento per il business-to-business, l'OCS può essere utilizzato per garantire che gli acquisti di aziende produttrici di beni, contengano in realtà materiale organico. Questa norma non riguarda la certificazione della materia prima, che è stata verificata in modo indipendente durante il processo produttivo. Essa non affronta gli ingressi nel processo produttivo (ad esempio prodotti chimici), aspetti ambientali del processo (ad esempio, l'uso di acqua ed energia), gli aspetti di sicurezza e di conformità legale.

Continental Clothing Co. está certificada bajo la Organic Content Standard por Control Union Certifications, licencia 828402 CU.

El objetivo de la Organic Content Standard (OCS) es asegurar la confianza en reclamaciones de contenido orgánicos. La OCS logra este objetivo mediante la verificación de la presencia y cantidad de materia orgánica en un producto final. Esto favorece la existencia de una fuerte cadena de custodia de la fuente de la materia orgánica prima hasta el producto final a través de esta certificación. También permite una evaluación y verificación independiente amplia, consistente y transparente de reclamaciones sobre contenidos materiales orgánicos en los productos por un organismo de certificación acreditado. Como una herramienta de business-to-business, la OCS puede utilizarse para asegurar que compras de productos de las empresas de productos realmente contienen material orgánico. Este estándar no cubre la certificación de la materia prima, que se ha verificado independientemente de la certificación del proceso de producción. Tampoco aborda el procesamiento de inputs (por ejemplo, químicos), aspectos ambientales del proceso (por ejemplo, el uso de agua o energía), aspectos de seguridad y cumplimiento legal.

Continental Clothing Co. products are tested and certified under OEKO-TEX® Standard 100 Class I by Shirley Technologies under certificate number 11-20489.

The OEKO-TEX® Standard 100 is an independent testing and certification system for textile raw materials, intermediate and end products at all stages of production. The testing for harmful substances always focuses on the actual use of the textile. The more intensive the skin contact of a product, the stricter the human ecological requirements to be met. The Continental Clothing certificate meets Class I criteria for textile items for babies and toddlers up to 3 years, the highest of the four classes of certification.

The certified articles fulfill the requirements of Annex VII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children's articles.

The conformity is verified by audits.

Les produits Continental Clothing Co. ont été testés et certifiés en vertu de la norme Oeko-Tex® Standard 100 Classe I par Shirley Technologies en Angleterre sous le numéro de certificat 11-20489 depuis 2004.

La norme OEKO-TEX® Standard 100 est un système indépendant de tests et de certification pour les matières premières textiles, produits intermédiaires et produits finis intervenant à tous les stades de la production.

Les tests pour les substances nocives sont toujours concentrés sur l'utilisation réelle du textile. Plus le contact d'un produit avec la peau est important et plus les exigences écologiques humaines seront élevées. Le certificat Continental Clothing répond aux critères de catégorie I pour les articles destinés aux bébés et enfants jusqu'à 3 ans, le plus élevé des quatre classes de certification.

Les articles certifiés répondent aux exigences de l'annexe VII de REACH (y compris l'utilisation de colorants azoïques, de nickel, etc.) ainsi qu'aux exigences américaines concernant la teneur totale en plomb dans les articles pour enfants.

La conformité est vérifiée par des audits.

I prodotti Continental Clothing Co sono stati testati e certificati secondo OEKO-TEX® Standard 100 Classe I in Inghilterra dalla Shirley Technologies con il numero di certificato 11-20.489 dal 2004.

Lo standard OEKO-TEX® Standard 100 è un sistema di certificazione indipendente delle materie prime grezze, intermedie e prodotto finito in tutte le fasi di produzione. I test per le sostanze nocive si concentrano sempre sull'uso effettivo del prodotto. Più è intenso il contatto con la pelle di un prodotto tessile più accurati e rigorosi saranno i requisiti ecologici da rispettare per la salute umana. Il certificato di Continental Clothing soddisfa i criteri della classe I per tutti gli articoli tessili per neonati e bambini fino a 3 anni, la più alta delle quattro classi di certificazione.

Gli articoli certificati rispettano i requisiti di cui all'allegato VII del regolamento REACH (incl. L'uso di coloranti azoici, nichel, ecc), così come l'esigenza americana riguardanti il contenuto totale di piombo negli articoli per bambini.

La conformità è verificata mediante audit.

Los productos de Continental Clothing Co. han sido testados y certificados por la OEKO-TEX® Standard 100 Class I por Shirley Technologies en Inglaterra bajo el número de certificación 11-20489.

La OEKO-TEX® Standard 100 es un sistema independiente de testado y certificación para la materia prima, productos intermedios y productos finales. El testado de sustancias dañinas siempre se centra en el uso actual del textil. Cuanto más intenso sea el contacto con la piel de un producto, más estrictos son los requisitos medioambientales. El certificado Continental Clothing reúne el criterio Class I para textiles infantiles y de bebés de hasta 3 años de edad, la más alta de las cuatro certificaciones.

Los artículos certificados cumplen los requerimientos del Anexo VII de REACH (incluyendo el uso de tintes azoicos, níquel, etc.) como también los con los requeridos por América referidos al contenido total de plomo en artículos infantiles.

Esta aprobación está verificada mediante auditorías.

A living wage is a human right

A Living Wage should be earned in a standard working week (max. 48 hours) and allow a garment worker to be able to buy food for herself and her family, pay the rent, pay for healthcare, clothing, transportation and education, and have a small amount of savings for when something unexpected happens.

Products showing the FAIR SHARE label carry a small price premium that is passed directly on to the garment workers in India towards their Living Wage.

Adding as little as 10p to the price of a T-shirt or 54p to the price of a hoody, will result in a 50% increase in the wages of the poorest workers at our factory in India.

www.fairsharefashion.com

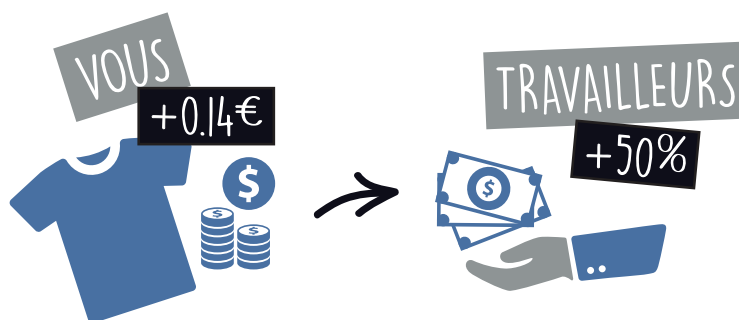

Un salaire minimum vital est un droit humain

Le salaire minimum vital doit être gagné au sein d'une semaine de travail standard (48 heures max.), doit permettre au travailleur d'acheter de la nourriture pour lui-même et sa famille, payer le loyer et les autres dépenses liées à la santé, l'habillement, le transport et l'éducation. Cela doit également lui permettre d'épargner un minimum pour faire face à des événements inattendus.

Les produits affichant le logo FAIR SHARE ont un coût supplémentaire destiné directement aux travailleurs en Inde pour atteindre leur salaire minimum vital.

L'ajout de 0.14€ au prix unitaire d'un T-shirt, ou de 0.70€ pour un sweat à capuche provoque une augmentation de 50% des salaires pour les travailleurs les plus pauvres de notre usine en Inde.

Un salario digno es un derecho humano

Un salario digno se debería de ganar en una semana laboral estándar (max. 48 horas) y permitir que un trabajador pueda comprar comida para él y su familia, pagar alquiler, pagar seguro médico, ropa, transporte y educación y además poder ahorrar dinero para gastos imprevistos

“
Un pequeño
cambio
puede ser
una gran
diferencia.
”

Presentando la etiqueta FAIR SHARE. Los productos llevan un pequeño aumento de precio el cual va dirigido directamente a los trabajadores de fábrica en India, junto con su salario.

Añadir tan solo 14 céntimos al precio de una camiseta o 70 céntimos al precio de una sudadera, puede provocar un aumento del 50% en el salario de los trabajadores más pobres de India.

www.fairsharefashion.com

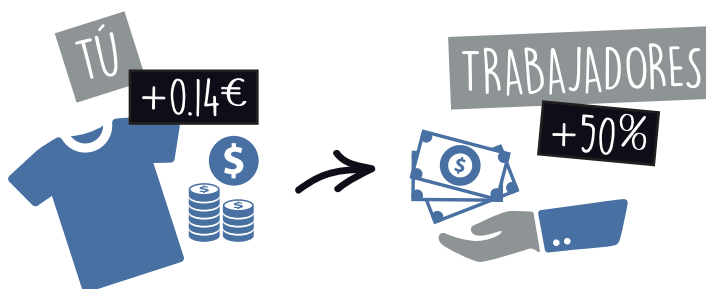

Un salario vital di sussistenza è un diritto umano

Un salario vitale di sussistenza dovrebbe essere conseguito con uno standard di lavoro settimanale di massimo 48 ore e consentire al dipendente dell'azienda di abbigliamento di essere in grado di acquistare cibo per lui e la sua famiglia, pagare l'affitto, poter pagare per l'assistenza sanitaria, l'abbigliamento, i trasporti, l'istruzione e poter accantonare una piccola somma per far fronte ad eventuali imprevisti.

“Un piccolo cambiamento fa una grande differenza.”

I prodotti con etichetta FAIR SHARE portano nel costo un piccolo premio che viene direttamente girato ai lavoratori tessili al fine di garantire un salario vitale di sussistenza decente.

L'aggiunta di un minimo di 0.14€ sul costo di una maglietta o di 0.70€ sul costo di una felpa si tradurrà in un aumento del 50% nei salari dei lavoratori più poveri nella nostra fabbrica in India.
